1. It is reported that planning in high level Communist circles has been going on for some time concerning the revival of the Hungarian aircraft industry to meet future military requirements. Thus far the authorities have not gone further than to discuss what machinery would be needed.
2. It is almost certain that the first plant to be reorganized will be the Dunai Repulogepgyar at Horthy Liget on Csepel Island. Another likely plant is that of Uhri Brothers.
3. To begin with, work will be limited to assembling aircraft parts which will be produced elsewhere, and to service aircraft already in use. It is expected that by the time work starts there will be some 2,000 workers in the industry.
